Director's Note

“You might as well be saying, you think that it’s okay...
and that’s not right!” -Matilda

Welcome to our spring musical: Matilda Jr!

Matilda Wormwood, Ms. Trunchbull, and this entire cast of characters have been captivating audiences for over 30 years. It’s a beautiful story about childhood, imagination, and what it means to stand up for what is right. While we may not all have psychic powers that can help solve things, this musical shows us the power in taking a stand when things are bad. I am always drawn to stories that have morals that are applicable to young people today. Being in middle school is hard, especially in a post-pandemic, screen filled era. I hope these students can see how powerful they can be when they work together and use a little imagination.

This cast and crew has poured their heart and souls into this production. They have pushed each other to create a performance where each scene is more energetic, more colorful, and more magical than the last. To my 7th graders: your talent and passion for theatre has blown me away. I am very lucky to be surrounded by such passionate and amazing artists. To my 8th graders: It has been such a joy watching your grow as performers, techies, and as people. These goodbyes are always hard, but I can’t wait to see what you do next. You will always have a home in the Frost Drama family.

As always, thank you for your continued support of educational theatre. We couldn’t do it without you.

Enjoy the show!

Mr. Jack Lockrem

Frost Drama Director
